Newark, New Jersey

My dear Mrs. Manley:

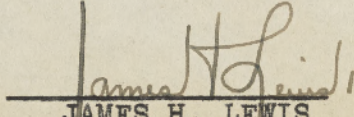

I regret the necessity of having to advise you that the Community Hospital Guild, who had agreed to endorse and assume responsibility for the charity baseball game for the benefit of the Community Hospital, informed me a few days ago that after giving considerable thought to the proposition they do not feel that they will be in position to carry it out.

I am sorry about this, but there is nothing I can do. I contacted all of the groups who might be in position to sponsor the game with no avail, and this was the last straw. Now, we find that the Guild will not be able to carry out the project as we had hoped they would, and there is no other group to whom we can turn for aid.

I regret this turn of events exceedingly, but I do hope that you will continue to think of the Hospital and that when next you are willing to have your team play a game for us we will be in position to avail ourselves of the opportunity.

Thanking you for your every consideration and with every good wish to you and yours.

Very truly yours,

JAMES H. LEWIS
Superintendent
